

Untangling the Web

of EU Cybersecurity Regulations

**DELivering holistic, cusTOMised And easy-to implement solutionS
towards efficient implementation of EU leGislation and compLIance**

Making cybersecurity compliance and collaboration seamless across the EU, ensuring that every organization, from national authorities to small enterprises, can meet the requirements of the NIS2 Directive and the Cyber Resilience Act (CRA) with confidence

Integrated Incident Management Platform

powered by AI to detect, respond, and learn from cyber incidents faster.

NIS2 Compliance Tracker

helping organizations assess and monitor their cybersecurity readiness automatically.

Cybersecurity Collaboration Hub

connecting Member States and industries to share intelligence and build joint resilience.

Certification Support Framework

guiding companies through EU cybersecurity certification in a simple and structured way.

CRA Supervision & Enforcement Toolkit

empowering authorities to monitor and enforce product cybersecurity effectively.

By integrating these services into one ecosystem, DETANGLE enables trust, transparency, and resilience across Europe's digital landscape.

Bringing order to complexity - transforming Europe's cybersecurity challenges into opportunities for collaboration, innovation, and shared strength.

A European initiative supporting practical cybersecurity compliance

DETANGLE's mission is to simplify the practical implementation of European cybersecurity legislation by developing an integrated framework and digital platform that supports organisations in assessing, monitoring, and improving their cybersecurity readiness.

Through innovative tools, collaborative mechanisms, and capacity-building activities, the project aims to strengthen compliance processes, facilitate certification pathways, enhance incident management, and promote cross-border cooperation among cybersecurity stakeholders across Europe.

DETANGLE PROFILE

14 ORGANISATIONS

8 COUNTRIES

PROJECT NAME:

Delivering holistic, cusTomised And easy-to implement solutioNs towards efficient implementation of EU leGislation and compliance

PROJECT ACRONYM: DETANGLE

CALL: DIGITAL-ECCC-2024-DEPLOY-CYBER-07

TOPIC: DIGITAL-ECCC-2024-DEPLOY-CYBER-07-CYBERSEC-02

GRANT NUMBER: 101249446

START DATE: Jan 1, 2026, **END DATE:** Dec 31, 2028, **DURATION:** 36 months

PROJECT COORDINATOR: ITML CY, gebravos@itml.gr
