INCIDENTRON

www.incidentron.eu

Incident Reporting Automation Support

Developing a modular, scalable and open-source framework for end-to-end incident reporting. It helps essential and important entities, MSSPs and authorities reduce administrative effort, harmonise reporting obligations and focus resources where they matter most: incident response and resilience.

OSCRAT

www.oscrat.eu

Open-Source Cyber Resilience Act Tools

Enhancing cybersecurity resilience among European SMEs through the development of an open-source, completely free, tool dedicated to supporting compliance with the Cyber Resilience Act (CRA).

SONIC

www.sonic-project.eu

Security Oriented Nexus for Intelligent Commodity Solutions Marketplace

Enhancing the protection and resilience of digital infrastructures by bringing together innovative technologies and services to support earlier threat detection, faster incident response, and more robust cyber resilience in increasingly complex and heterogeneous environments.

CURIUM

www.curium-project.eu

Introducing a novel Compliance Continuum – a suite of cybersecurity-oriented tools and services designed to provide information, guidance, trustworthy security testing, and streamlined compliance with the Cyber Resilience Act (CRA).

WEM Cyber

www.wemcyber.eu

Widening Excellence and Mentoring in Cybersecurity

By connecting academia and industry across Europe, the project supports career development, knowledge exchange, and capacity building through secondments, mentoring, and targeted training activities.

CYBERFORT

www.cyber-fort.eu

Strengthening Cyber Defenses of SMEs for CRA Compliance

Providing tailored tools, guidance, and training, while fostering collaboration among cybersecurity firms, national authorities, and industry stakeholders.

CYberSynchrony

www.cybersynchrony.eu

Introducing a holistic modular framework, amalgamating pioneering technologies to cultivate a cohesive, resilient cybersecurity infrastructure.

APPtake

www.apptake.eu

Building a portfolio of sustainable application cybersecurity solutions to foster the adoption of DevSecOps practices by the European SMEs, increasing their cybersecurity capabilities.

TrustBoost

www.trustboost.eu/

A state-of-the-art online platform that manages the certification and conformity status of digital products throughout their lifecycle.
